THE EFi WINTER MOOT IS an opportunity for people who feel affiliation with the ideas behind Earth First! to network, discuss and reflect on the UK ecological direct action movement and to plan for the future. Following a popular discussion at 2009's EFi Summer Gathering 2010's Moot also aims to hold discussions on the theme of "readying ourselves for unpredictability and instability in the UK and globally". The current & impending crises of economics, ecology, energy & society fundamentally alter the terrain of struggle; this in turn impacts both the practice and possibilities for a radical ecological movement.

2010's Winter Moot is to be held in the County Durham area, an area with a large number of opencast coal mines, both active and at the application stage. The weekend will include opportunities to meet with activists involved locally in campaigns against these. Cost including vegan food & crash-pad accommodation £20-£30 (depending what you can afford-but please don't blag-even the organisers will pay) If you have particular accommodation, access or dietary needs or are bringing children it would help us to know as soon as possible so we can plan suitable facilities; whoever you are please do try & drop us an email at least a week in advance so we can gauge how many to cater for.
